Dear HR Manager,

I am Nazeeb a computer science student and a teacher who want to become a good professional developer because of my creativity mind skills. It's a fun for me to create something new for the world that all time. So far i was just teaching because I was learning what programming is, now I feel that unless it is done professionally, I will not be able to move forward. I am confident I will be an asset to your organization. I enjoy being challenged and engaging with projects that require me to work outside my comfort and knowledge set, as continuing to learn new languages and development techniques are important to me. I have taught a large institute and college student in my teaching career so far. Everyone has been appreciating my teaching skills, I have learned a lot in the last 4 years.

I would like to highlight that would enable me to contribute to your bottom line are:

- Highly skilled in designing, testing, and developing software
- Thorough understanding of data structures and algorithms
- Knowledgeable of back-end development and front end best practices
- Hands-on software troubleshooting experience
- Proven track record of proper documentation for future maintenance and upgrades

I've attached a copy of my resume that details my skills and experience in software development. I can be reached anytime via my cell phone, 8826656182 or via email at nazibkhan879@gmail.com.

Thank you for your time and consideration. I look forward to speaking with you about this opportunity.

Sincerely,

Nazeeb khan
